

## THE UNIQUE AND INNOVATIVE STAYSAFE ALL-IN-1

STAYSAFE ALL-IN-1 FIRE EXTINGUISHEI

TEN

# The only LITHIUM ION BATTERY FIRE EXTINGUISHER NON TOXIC

CELL PHONES, LAPTOPS, ELECTRIC SCOOTERS & BIKES.(KEEP ONE IN THE CAR - WILL NOT FREEZE) LARGER FIRE EXTINGUISHERS AVAILABLE FOR ELECTRIC/HYBRID VEHICLES.

#### 1. Flammable Liquids and Solvents

Fuel (Gasoline or Diesel): Commonly stored for vehicle repairs.

Oil and Lubricants: Motor oil, transmission fluid, or other automotive lubricants.

Brake Cleaners and Degreasers: Typically solvent-based and highly flammable.

Paints and Thinners: Used for bodywork or detailing.

Adhesives and Sealants: Some are flammable during application or when exposed to heat.

#### 2. Electrical Equipment

Battery Chargers: Overcharging lithium batteries can lead to excessive heat and fire.

Power Tools: Faulty chargers or overheating tools with built-in lithium batteries.

Wiring and Extension Cords: Damaged or overloaded wiring can spark fires.

EV Charging Stations: Mishandling or faults in electric vehicle chargers can be a fire risk.

#### 3. Combustible Materials

Rags and Paper Towels: Soaked in oil, fuel, or chemicals, they are highly combustible. Packaging Materials: Cardboard boxes or plastic wraps.

#### 4. Heat-Producing Equipment

Welding and Cutting Tools: Sparks can ignite flammable materials.

Space Heaters or Heat Guns: Improper use near batteries or flammable items.

Engine Testing Equipment: Hot surfaces can ignite vapors or nearby combustibles.

#### 5. Storage Hazards

Improper storage of batteries near flammable liquids or in high-temperature areas increases the risk of fire

Lack of appropriate fireproof cabinets or containment for hazardous materials.

#### 6. Other Chemicals

Coolants and Antifreeze: Although less flammable, improper handling near heat sources can pose risks. Tires and Rubber Components: Can ignite and burn at very high temperatures, worsening fires. Compressed Gas Cylinders: Like acetylene or propane used for welding; leaks can fuel fires.

#### STAYSAFE ALL-IN 1 IS THE SOLUTION YOU HAVE BEEN WAITING FOR!!

- The StaySafe All-in-1 is a fully approved, simple to use, effective, lightweight, compact, maintenance free, affordable fire extinguisher ideal for the home, garage, office, caravan, van, car, university, school & rental properties to name a few
- Patented, eco-friendly, non-toxic fire extinguishing fluid extinguishes ten different types of fire including the increasing numbers of lithium-ion battery fires

- Lithium-ion batteries
- Bio-ethanol
- Motor oil
- Bio-diesel

## THE UNIQUE AND INNOVATIVE STAYSAFE ALL-IN-1

STAVSAFE ALL-IN-1 FIRE EXTINGUISHE

### 335200CA-A

#### StaySafe All-in-1 has got you covered!

#### 1 EV/Hybrid Vehicle Tools

- Battery diagnostic equipment
- High-voltage insulated tools
- Battery lifts
- Thermal management testing tools
- Battery chargers

#### 2 Cordless Lithium-Ion Tools

- Impact wrenches
- Drills and ratchets
- Portable lights

### 3 Battery Management System (BMS) Testers

- 4 Charging Infrastructure
- Level 2 or 3 chargers

## Why Should You Get All-in-1 Fire Extinguishers

#### •

#### Easy to Use

Our spray-nozzle fire extinguisher has no balls, pins, or mechanical parts, making it easy to use.

#### No Maintenance

This extinguisher needs no maintenance, making it hassle-free.

Easy handling and storage make our product ideal for emergency access.

#### •

#### **Portable**

Our unique fire extinguisher can be kept at home, in the office, or in your car to ensure readiness.

#### •

#### Zero toxicity

The StaySafe All-in-1 Fire Extinguisher contains zero toxic chemicals, making it entirely safe for indoor and outdoor use.

### Fights Multiple Fire Types

Designed to handle different types of fire, replacing the need to purchase multiple fire extinguishers

#### **Electronics**

- 1 Smartphones
- 2 Laptops
- 3 Tablets
- 4 Smartwatches and fitness trackers
- 5 Wireless headphones/earbuds
- 6 Digital cameras

#### **Portable Tools**

- 7 Cordless drills
- 8 Impact drivers
- 9 Electric screwdrivers
- 10 Garden tools (e.g., leaf blowers, hedge trimmers)

#### **Appliances**

- 11 Robotic vacuum cleaners
- 12 Cordless stick vacuums
- 13 Handheld fans
- 14 Portable air conditioners/heaters

#### **Toys and Recreation**

- 15 Remote-controlled cars, drones, and helicopters
- 16 Electric scooters
- 17 Hoverboards
- 18 Gaming controllers

#### **Personal Care Devices**

- 19 Electric toothbrushes
- 20 Beard trimmers and clippers

#### **Backup and Power Systems**

- 21 Power banks
- 22 Portable generators
- 23 Solar-powered lights and chargers

#### Other Gadgets

- 24 Flashlights
- 25 Portable speakers
